Dear Sirs:

Gratefully yours,
Mrs. J. W. Herttim

Charles Thomas Richards
Peony Specialist

We Grow Over 20 Acres of Peonies Every Year

The nucleus of the present Richards Gardens was started in 1918 when the present owner, Charles T. Richards, was recovering from a serious case of flu . . .

"Ordered by my doctor to take a leave of absence and not work for a year, I turned to gardening as a means of occupying my time. I had always greatly admired Peonies and now began to study them and the best methods of growing them. I sent to George H. Peterson of Fairlawn, New Jersey, a prominent Peony grower at that time, for 12 Peony plants which I grew on a vacant lot. This original planting is still blooming luxuriantly.

Growing Peonies proved fascinating work and soon I became a Peony hobbyist. As newer varieties came out they were added to my collection. I remember very well making a purchase of Kelway's Glorious for which I paid \$50.00, quite a sum in those days!

Over the years the Peonies have been given meticulous care and the fields have been rogued consistently to keep the varieties straight and true-to-name. By 1928 I had so many hundreds of Peonies, it became necessary to expand, so I purchased the present farm which constitutes Richards Gardens. We now have many acres of Peonies in cultivation and have sold hundreds of thousands of them.

About 1933 we started the perennial gardens and now grow more perennials than any other nursery in the United States."

We Offer the Highest Rated Peonies
